

I am petitioning on this issue as a listener and supporter of Airl Radio (Airl.com).

With the number of other radio stations, Airl is one of the few stations that has a positive message and is family-friendly. It has a personal impact on my life in helping cope with the stressors of life and it helps keep my attitude healthy and positive.

If an LPFM broadcaster were to cause Airl radio to not be available in my area, it would leave a significant hole in our region and have a detrimental impact on my own life.

We need more positive alternatives like Airl.
